Social Thinking (Think Social Publishing)

(408) 557-8595 Ext: 203 On-line

Our books, materials, and conferences focus on building social competencies and have been adopted in social and emotional learning initiatives globally. The Social Thinking materials are designed to teach how to better navigate the social world, foster relationships, and improve their performance at school, at home, and at work. Our unique tools break down complex social concepts (like perspective taking) into understandable and doable parts that can be applied in any setting. For over 25 years, our experts have been a guiding resource for schools, clinics, and families around the world, and our teachings continually evolve based on the latest research and clinical insights. Materials are for both neurotypical and neurodivergent students.

The Social Thinking Methodology addresses the questions: How does the social world work, and how can we help our students better navigate to regulate within it? How do our social emotional learners function within the social world? Our methodology fosters the development of social competencies so foundational that our work applies across cultures, ages, races, religions, mental health diagnoses, etc., and has been adopted within communities around the world. We stand committed to providing quality, practical information that is rooted in research, built upon real-world experiences, and is responsive to the needs of the people for whom it is designed to help. We are constantly learning and gaining inspiration from our clients and others we meet, so our work is ever evolving yet remains grounded in its adherence to rigorous standards of quality.

Genesis Orthopaedic and Spine

(908) 588-2311 Ext: 1110 Statewide

Genesis Orthopaedic and Spine treats a variety of medical conditions from head to toe.

Often, regenerative medicine called Platelet-Rich Plasma Therapy "PRP" is recommended, as we use it to treat arm pain, hip pain, knee pain, and ankle pain for conditions such as strains, bursitis, tendonitis, osteoarthritis, and many injuries. Many patients experience a great deal of relief and faster healing, and the treatment has decreased risks and cost compared to surgical alternatives. It is also safer than cortisone injections.

Additionally, our services include traditional orthopedic treatments and surgery, pain management, physical therapy, sports medicine, concussion diagnosis and treatment, podiatry, spine surgery, and more.

Show your NJEA membership card upon check-in at your appointment. If PRP therapy is the recommended course of action for your condition, the full treatment will be discounted by $100. Genesis Orthopaedic and Spine facilities are located in:
- Westfield - 119 S Euclid Ave, suite 1
- West Orange - 300 Executive Drive, suite 110

Financial Clarity & Confidence
A Financial Wellness Program for Educators
Start taking control of your money. Stop fretting, worrying, and carrying financial stress into every part of your life—and start taking action.
Financial Clarity & Confidence is a 1-on-1 Financial Wellness experience designed specifically for educators who are tired of feeling overwhelmed, uncertain, or reactive when it comes to money.
This program helps you understand why you make certain financial decisions, uncover patterns of emotional or stress-driven spending, and replace them with intentional habits that support what truly matters to you. Instead of constantly worrying about money in the background, you'll gain clarity, confidence, and a sense of calm around your finances.
Through personalized coaching, we will look at your full financial picture and create a clear, easy-to-follow monthly budget that helps you stay on track without feeling deprived or restricted. You'll learn a practical, realistic approach to managing money—one that fits your life and gives you a simple system to rely on, even during busy or stressful times.
You will walk away with a stronger understanding of how to manage day-to-day spending, reduce financial anxiety, and make confident decisions aligned with your values and long-term goals. The focus is on progress, not perfection--helping you shift from worry and short-term reactions to clarity, stability, and peace of mind.
The program includes a complimentary 30-minute consultation and individualized 1-on-1 sessions tailored to your goals, challenges, and life stage. Whether you're seeking relief from financial stress, better habits, or a stronger foundation for the future, this experience is designed to help you move forward with confidence.

Mention you are an NJEA member to receive special member pricing, a free 30-minute consultation, and a money-back guarantee. Acceptance into the program is mutually agreed upon during the complimentary consultation. Sessions are conducted virtually via Zoom, with flexible scheduling to support educators' busy lives.

The Drop-In Nest

(908) 208-5132 On-line

The Drop-In Nest is a virtual mental health urgent-care center that provides timely, accessible support when people are struggling with stress, overwhelm, or emotional crises. It functions as a bridge between long wait times for traditional therapy and the immediate emotional support people need most.
Core Services
Same-Day & Next-Day Virtual Sessions.
Clients can receive rapid access to licensed therapists through same-day or next-day video sessions, which helps remove barriers like waitlists and limited appointment availability.
Crisis & Emotional Support
Therapists help clients navigate intense emotions and stressful transitions with grounding strategies, coping tools, and practical mental health support in real time.
Insurance & Access
The Drop-In Nest accepts most major insurance plans and Medicaid, broadening access for people who might otherwise face financial barriers to mental health care.
Interim Support Between Care
For individuals already connected with long-term therapists, Drop-In Nest provides supplemental support during high-stress periods or between regular appointments, offering immediate relief without replacing ongoing care.
How NJEA Teachers Can Benefit
NJEA members, including classroom teachers and education support professionals, face high levels of stress, burnout, and emotional demands that can affect both their professional effectiveness and personal well-being. Educators nationwide report elevated stress, exhaustion, and mental health concerns linked to workload and the emotional labor of the job.
Here's how The Drop-In Nest can help NJEA teachers directly:
➤ Rapid Access to Support During Critical Moments
Whether you're facing a particularly difficult school week, struggling with burnout, or processing classroom trauma, the ability to get same-day or next-day virtual therapy helps you manage stress when it matters most.
➤ Support That Fits Busy Schedules
Teachers often juggle packed days, after-school duties, and prep time. Virtual appointments eliminate commute time and can be scheduled in windows that work for your calendar.
➤ Supplement to Existing Benefits
While NJEA membership and district benefits may include mental health resources (like helplines or wellness programming), The Drop-In Nest can fill gaps by offering real-time therapeutic contact when usual channels are unavailable or insufficient.
➤ Confidential and Non-Judgmental Space
Some educators find it hard to use employer EAPs or district-based resources due to concerns about privacy or stigma. Drop-In Nest provides a confidential environment focused solely on your well-being.
➤ Support for Life Outside the Classroom
The emotional load educators carry doesn't stop after school hours. The Drop-In Nest supports not just job-related stress, but also life transitions, family challenges, grief, anxiety, and personal emotional health, helping educators show up fully both professionally and personally.

NJEA members can send their proof of NJEA membership and insurance information upon intake for the Drop-In Nest. This will be approved, and then NJEA members will receive $10 off copays/deductibles per session at the Drop-In Nest.

The Grand Review

(267) 269-1606 On-line

We are printmakers based in Collingswood, NJ. Our prints are all created in house from obscure historic archival materials, creating a catalog from a crossroads where history meets art. Where history, reconsidered, becomes art.
The works are wonderful for the classroom, for art teachers and history teachers, for the main office, and for teacher lounges. Engaging and unusual, they spur young minds to further inquiry while uplifting the visual environment as decorative art prints.

We offer a 50% discount on all our prints for NJEA members who wish to hang one of our prints anywhere in their school. Simply go to our catalog, choose one or several prints, contact us, and identify as an NJEA member to have the 50% discount applied to your order. Discounted prints must be hung in schools. NOTE: We usually have a stack of culls and samples in our Collingswood studio that can be had for free, by the armload. Let us know you're coming, and we'll set them out on worktables. Lively up your classrooms, even use some of them in various projects. 100% your discretion.
